

Bear Star Solutions

www.bearstarsolutions.com

Company Overview:

Bear Star Solutions LLC, a Service Disabled Veteran Owned Small Business and Minority Owned Small Business, is a leading provider of steel manufacturing services, offering a range of capabilities that set us apart from the competition. Our expertise includes large scale steel cutting, shaping, welding, and other metals fabrication services, to include aluminum, steel, iron, and composites. Our skilled team covers the entire gamut of steel manufacturing, utilizing the latest techniques and equipment to ensure that our products are durable, reliable, and ensuring that our products meet the highest standards of quality and precision. Bear Star Solutions LLC maintains supply chain capabilities to support customers on a national scale based on strategic manufacturing and management locations throughout California and Texas.

Bear Star Solutions LLC is a center of excellence in steel manufacturing and the partner to have, offering unparalleled expertise, cutting-edge technology, and a commitment to excellence in every aspect of the production process. Our company is led by two former Army Officers who have extensive industry experience in: manufacturing, supply chain, product forwarding, material engineering, and commercial industrial supplies. We are committed to providing the highest level of service possible.

Core Competencies:

- **Materials expertise:** The ability to source, analyze, and work with a wide range of metals and alloys, including steel, stainless steel, aluminum, and other specialty metals.
- **Cutting and shaping:** The ability to cut, shape, and form metals using a range of techniques, such as laser cutting, plasma cutting, band sawing, and punching.
- **Welding and fabrication:** The ability to join and assemble metal components using a range of welding and fabrication techniques.
- **Lean manufacturing:** The ability to optimize production processes and reduce waste through the use of lean manufacturing principles.
- **Supply chain management:** The ability to manage the supply chain effectively, ensuring timely delivery of raw materials, components, and finished products, and maintaining strong relationships with suppliers and customers
- **Unparalleled expertise, innovative technology, and a commitment to excellence that ensures customer satisfaction and success.**
